

Homework 10 – Design Principles and Design Patterns

1. Work individually
 - a. Study assigned design pattern, see in:
<https://drive.google.com/file/d/1L054YA9B5FLLOEKZ6h-Bdpl8wv5t23Q6/view?usp=sharing>
 - b. Write reports (.docx for detail, .pptx for presentation) for that design pattern
2. Work in group
 - a. Refactor your design and your code, considering design principles (coupling/cohesion, SOLID principles)
 - b. Write a report about what you make your design better using design principles and design patterns
